Education

College Of Engineering Trivandrum

Master of Computer Applications

Kerala, IN

Jul. 2025 – Present

Nss College Rajakumari

Bachelor in Computer Applications

Kerala, IN

Jul. 2021 – Apr 2024

Projects

Custom Pc Build Management | *Javascript, python(flask), mysql, html, css*

December 2023

- Designed and implemented the front-end user interface using HTML, CSS, and JavaScript, providing a seamless and intuitive experience for users configuring their PC builds.
- Developed a back-end system with Python flask and javascript to handle component selection logic, ensuring compatibility and performance optimization
- Developed a database structure to store and manage user configurations, order history, and component data securely.

Inventory Management System | *Php, javascript, ajax, html, css*

June 2023

- Developed the front-end interface using HTML, CSS, and JavaScript, providing users with a clear and easy-to-navigate system for managing inventory
- Built a robust back-end system using PHP to handle inventory data processing, including stock level updates, order management, and product restoring
- Designed a scalable database structure using MySQL to store and manage product details, stock levels, supplier information, and transaction history

Technical Skill

Languages: Php Java, JavaScript, Python, C/C++, SQL, HTML, CSS, SQL

Databases: MongoDB, Firebase, MySql

Frameworks: React, Spring boot

Developer Tools: Git, Docker

Skills: Data Structures and Algorithms (DSA), OOPS concept, Cloud computing

Extra Curricular Activities

Technical Team: Incepta 2026

Club: Google developer's Students club
